

Collection No. 73 K.H.L. Key

Molong area,

10/11/55.

10/11/55

N.S.W.

~~Subst~~ 22202.8. Cudal. ^{Went} Along Orange road.
204.6. Cemetery. ^{Tipurga grassa, Coniaca m. leucostomum,} *Albens*, *meliodora*, slightly
^{*Psychostictus* sp. n., *Cryptobothrus chrysophorus*}
Hummed on red-brown sandy loam.
Pasture outside cemetery *Stipa* "variabilis"
+ *Danthonia*. Inside the greater part has
been heavily grazed, leading to dominance
of *Hustles*, nettles, etc. A small area
consists of *Themeda* & *Poa*, with no
Helichrysum. This is broken up by heavily
grazed patches, as though animals had
been tethered for some time & had eaten
the ground bare. *Tipurga* from outside
cemetery. *Phaulacridium vittatum*.

221.5. Molong. 226.8. Cemetery, approx NW-
^{Moraba sp.}
of town. Very large, with dense tall *Themeda*,
some *Poa* & a very little *Helichrysum*
throughout. Cleared from *meliodora* &
stuartiana. (Cemetery is reached by
turning off ^{to left} Mullington road at Castle St,
0.9 ml. from ~~centre of~~ P.O. Proceed along
Castle St. for 0.9 ml, then turn right for

0.3 mi. Cemetery on left.)
